New Factory Installed Fusing on HPS Imperator™ Control Transformers

HPS is proud to offer factory installed primary and secondary fuse clips on select models of its HPS Imperator™ Machine Tool Rated Industrial Control Transformer. Factory installed fusing on the select voltages are fully stocked up to 1500VA.

The HPS Imperator series is a unique, innovative and compact design that provides the ideal solution for any industrial control application and will change the way the industrial machine tool industry looks at the control transformer.

Backed by an industry leading LIFETIME warranty, the HPS Imperator industrial control transformer line offers superior performance, quality and value.

The control transformer of the future is here today!
