

Hammond Power
Solutions Inc.

HPS Manufacturers The World's Largest Dry-Type Transformer

HPS is the North American stand-alone leader for the design and manufacture of high quality custom electrical dry-type transformers and related engineered magnetic devices. The company is also a significant producer of standard products that are built to industry wide specifications. HPS excels at designing products that have very specific size and power constraints for many demanding applications. Having such an extensive engineering resource, HPS offers the broadest range of electrical products in the industry and as a result, the company has grown in many markets and provides services to many global leaders.

With four plants and six regional warehouses, HPS offers the broadest product line and inventory of standard product in the transformer industry. Over 80 years of experience in transformer design and development provides HPS with outstanding value and performance for the most difficult applications.
